

I am writing in concern to the new LPFM not allowing K-Love to broadcast on it's normal station any longer. K-Love serves myself, my family and many others in our town by way of positive, and encouraging, and morally correct music and commentary. To lose K-Love in our town or any other town for that matter is just another downfall to our country and society. K-Love has saved so many people from despair and poor choices. It is a live line to the God of heaven and earth that we so desperately need in this day and age and always. This station is in the best interest of the public because it helps us to be better people and to think of others and treat them the way we want to be treated. It makes for a kinder society. I would personally be devastated to not be able to listen to K-Love. That is all my family listens to, the majority of all the rest of the stations are filled with garbage to confuse us and bring us down. Please don't restrict K-Love from their regular frequencies. It will only bring our society to a lower level. Thank you.
